EXPERIENCE

Arthadisha Consultancy Pvt. Ltd | Web Developer

February 2023 – March 2024 | Pune, Maharashtra

SKILLS

Proficient:

- React JS
- JavaScript
- HTML
- CSS
- Java
- MS SQL SERVER
- PostgreSQL

TOOLS/PLATFORMS

- Visual Studio Code
- SQL Server
- GITHUB

PROJECTS

Caupona | [React JS, Node JS and Mongo DB](#)

Web Application

- Caupona is a canteen management system designed to facilitate online food item booking for school students. The system leverages card-based transactions, allowing students to purchase breakfast and lunch based on the available balance in their accounts. Each student is issued a separate card for this purpose.
- Online food booking, Account management, Reporting and analytics, Availability tracking

E-Commerce | [React JS, Node JS and Mongo DB](#)

Github Link: - <https://github.com/Prikansi/e-commerce>

Web Application

- I developed a comprehensive e-commerce website using React for the frontend, Node.js for the backend, and MongoDB for the database. This platform offers a seamless user experience with essential e-commerce functionalities.
- Key features include secure user authentication for logging in and out, and robust product management capabilities, allowing users to add, delete, and update products easily.
- This combination of technologies and functionalities ensures a powerful and user-friendly website that meets the dynamic needs of an online marketplace.

News App | [React JS, Node JS and Mongo DB](#)

Windows Desktop Application

- I created a News APP application using React.js that enables users to access daily news tailored to their preferences. This application aggregates news from various sources, providing a comprehensive and up-to-date news feed. Users can browse different categories, search for specific topics, and stay informed about the latest events and developments. The intuitive interface ensures an easy and engaging experience for users seeking timely and relevant news.
